Summary

Aspiring Software Engineer pursuing a B.Tech in Artificial Intelligence and Machine Learning, with hands-on frontend development experience building production web applications using React.js, Next.js, and Express/EJS. Active open-source contributor and Google Cloud-certified cloud facilitator with a strong foundation in DevOps, AI/ML, and cybersecurity fundamentals. Seeking to leverage practical development experience and continuous-learning mindset in a Software Engineering role at Google.

Technical Skills

- **Languages & Frameworks:** JavaScript, React.js, Next.js, Express.js, EJS, HTML, CSS
- **Cloud & DevOps:** Google Cloud Platform, DevOps Fundamentals, CI/CD Concepts
- **AI/ML & Data:** Natural Language Processing (Google NL API), Applied AI/ML (HP Life)
- **Other:** Cybersecurity Fundamentals, Git/GitHub, Open Source Collaboration

Experience

Frontend Developer

June 2026 – Present
Remote

FlyRank AI

- Build and maintain responsive, user-facing interfaces using React.js and Next.js as part of the core frontend team.
- Collaborate with cross-functional teams to translate product requirements into performant, accessible web components.
- Contribute to code reviews and follow modern frontend engineering best practices in a fast-paced startup environment.

GSSOC Contributor

May 2026 – Present
Remote

GirlScript Summer of Code (Open Source Program)

- Contribute code, bug fixes, and feature enhancements to open-source projects as part of a global open-source mentorship program.
- Collaborate with maintainers and fellow contributors using Git/GitHub workflows, issue tracking, and pull request reviews.

Facilitator

January 2025 – Present
Remote

Google Cloud Arcade Facilitator Program

- Selected as a facilitator to guide participants through Google Cloud skill badges and hands-on labs.
- Promoted cloud literacy and completed applied Google Cloud labs, strengthening practical GCP expertise.

Education

DIT University

2024 – August 2028

Bachelor of Technology (B.Tech), Artificial Intelligence and Machine Learning

Red Rose Public School

Class 12th – Physics, Chemistry, Mathematics (PCM)

Saint Francis School

Class 10th

Certifications

- Professional Certificate in DevOps
- Implementation of Data in Technology through Artificial Intelligence – HP Life
- Analyze Sentiment with Natural Language API – Google Skill Badge
- Cybersecurity Analyst Job Simulation
- HTML and CSS for Web Designers: From Basics to Beautiful – Udemy
